Frequently Asked Questions

1. How are the courses in the *Options in Learning Guide* delivered?

Courses can be delivered in a variety of ways.

- Classroom based courses are generally held at the work site for a group (approximately 20-30) of employees. Magellan's training network allows us to locate a local trainer to facilitate the course in person. This format is typically best when the course topic could be emotionally stressful or a lot of interaction is required, such as Navigating Downsizing and Job Loss or Team Building.
- Webinars are presented in real-time via the Internet for the content and via telephone* for the audio. Participants may log in to the webinar at their desk individually or as a group in a conference room. Participants interact with each other and the presenter via poll questions and the "chat" feature. This format makes great use of your training hours because employees from multiple sites can participate at one time without traveling. Speakers with over 30 participants may choose listen-only mode and all participant communication will be conducted through the chat. Webinar meeting rooms can accommodate up to 100 participants.
 - *Audio is also available via computer. However, the trainer does not have control over technical issues related to audio via computer, because of the diversity in technology used by participants (ex. age of computer, broadband). International callers will have the option to call a toll number or listen to audio via their computer speakers.

2. How soon in advance should I request a course?

<u>Classroom-based</u>: At a minimum, 15 business days advance notice is optimal to ensure we locate a trainer with experience in your course topic. Four to six weeks is needed to create a classroom-based course that is customized to your company. *Consult with your account representative if customization is needed as additional fees may apply.*

*Please note larger scale requests, such as more than one training requested on the same day, may require additional lead time.

<u>Legal/Financial trainings</u>: These trainings are conducted by a legal/financial professional. To ensure the availability of an appropriate trainer, please request legal/financial trainings at least 5-7 weeks in advance, especially if customization is requested. *Please consult with your account representative as additional fees may apply to this training.*

<u>Webinars</u>: Due to their popularity, a minimum of 15-business days advance notice is also optimal for requesting webinars. Four to six weeks is needed to create a webinar that is customized to your company. *Consult with your account representative if customization is needed as additional fees may apply.*

How do I decide which course to select and in what manner it should be delivered?

In addition to calling your account representative at Magellan for a consultation, asking yourself the questions below can also help you to decide.

• What's going on in the workplace that led me to inquire about a Magellan course? (i.e.: a new product line, organizational change, employee stress)

- What do I want employees to gain from this course? (i.e.: strategies to balance work and personal life, strategies to cope with stress)
- What area(s) is/are a majority of employees talking about? (i.e.: financial strain, locating quality child/elder care)
- Do I want employees from multiple sites to participate at the same time?
- What learning format works best with our employees? (i.e.: classroom based, webinar)

4. Once I've selected a course, how do I request it?

You can request a course by calling either your company's EAP 800# or your account representative. Just let us know the course you have selected, how many employees will be participating, and what day and time you would like the course to be held.

5. What if I don't see a course in the Options in Learning Guide that meets my needs?

The customer training department can create a course to address your needs. Please consult with your account representative for customization fee details. Please keep in mind additional lead-time is needed for customization. Please note—Magellan does not create trainings in compliance with any state regulations and/or requirements.

6. What if I schedule a course and then have to cancel it?

Please notify your account representative as soon as you know the course will need to be cancelled. Please respect the trainer's schedule and provide at least one week notice. *Consult with your account representative regarding cancellation fees if a classroom based training needs to be cancelled with less than one-week notice.*

7. How long are the courses?

- Classroom-based: Classroom based courses vary in length depending on topic, but most are between 60 and 90 minutes.
- Webinars: Webinars also vary in length but are generally between 45 and 60 minutes.

8. What if I want to change the content or length of a training?

Please notify your account representative to discuss this variation. Please note customization of materials may change the course objectives. Also, all customizations require additional lead-time. *Please consult with your account representative for customization fee details.* *

*Magellan maintains copyrights on all Magellan developed materials.

9. Whom do I contact if I want to have Magellan at a health fair?

You can request Magellan attend a health fair by calling either your company's EAP 800# or your account representative. Just let us know the location of the health fair, how many employees will be participating, and what day and time you would like the health fair to be held. At a minimum, 15-business days advance notice is optimal to ensure we locate a provider in your area.

10. Can an in-person training session be videotaped?
